DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests or renders obvious a light emitting diode and its process of fabrication with a phosphor having the composition $\text{Sr}_{3-x}\text{SiO}_5:\text{Eu}^{2+}_x$ where x is greater than zero but less than or equal to 1.
3. Kanda et al. (USPN 4,152,483) describes europium activated phosphor materials. However none of these materials meets the applicant's claimed composition.
4. Miyazaki et al. (EP 1193306) discloses a method of forming a phosphor. However magnesium or zinc are required elements of the final composition and therefore do not teach the applicant's invention.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
